1. Transmitted herewith for your approval and/or comments are plans and performance-type specifications for the subject project.
2. Copies of the above information are also being sent to the four prospective bidders. The specifications have been prepared to be as unrestrictive as possible; however, they do require changes to the systems of some of the bidders on certain items. We have attempted not to specify any patented items which would give any of the bidders an edge.
3. It is requested that you furnish any comments on the attached information by 15 Sep 70 so that they may be resolved and incorporated in the contract specifications in time to advertise for bids as soon as possible. If the bidders have any controversial comments, we will resolve them with your office before advertising for bids.
